PADMA SAMVAAD WITH DR. KSHAMA METRE

Join us for a rendezvous with **Dr. Kshama Metre**
AKA DOCTOR DIDI

ACHIEVING GRACEFUL DEGRADATION FOR LEVEL 2+ AUTONOMOUS VEHICLES

Are you ready to embark on a journey of discovery with Padma Samvaad - a platform to interact with Padma Awardees (in the field of social work) and get motivated by their journey, achievements, and insights?

Our guest for this episode is Dr. Kshama Metre - a social worker, pediatrician, and National Director of CORD (Chinmaya Organisation for Rural Development).

She shares some of the most interesting experiences of her life, the evolving landscape of women's groups and much more.

ACHIEVING GRACEFUL DEGRADATION FOR LEVEL 2+ AUTONOMOUS VEHICLES

What happens when your autonomous vehicle encounters a fault in one of its features or functions? What should the system do?

Should the vehicle come to a halt, hand over control to the human driver, or continue to function under limited ODD conditions? A tough conundrum indeed!

But don't worry, our Subject Matter Expert, Joseph Sylvester, has got you covered!

He has recently written an article 'Achieving Graceful Degradation for Level 2+ Autonomous Vehicles' which is published on Hanser Automotive. In this audiogram, he'll give you a sneak peek into what his article is all about and highlight some of its major insights.
